## ABOUT ME

A hardworking and organized fresher aiming to learn and work for holistic growth of the organization along with creating a positive work environment for everyone. Seeking a good position in a reputable organization to kick start my career which will help expand my knowledge and also encourage me to utilize my skills at best. Using my interpersonal skills and my technical skills I will work towards the betterment of the organization for a fruitful outcome.

## PROJECTS

### Groovee Gate

Blockchain development

Technology Stack and Tools

- Solidity
- ReactJS
- Hardhat
- Ethers.js
- CSS

Groovee Gate is a blockchain based website for purchasing concert tickets online with the help of cryptocurrency such as ethereum. It is a web 3.0 application where users can pick seats and purchase them followed by receiving a blockchain based digital ticket for the event in the form of a non-fungible token.

### Daily Insider!

Web Development

Technology Stack and Tools

- ReactJS
- Alan AI
- API
- Auth0
- CSS

In today's fast pacing world, it's hard to keep track of everything happening around us. To ensure quick and easy access to latest headlines we have created a voice controlled news web app where one can get latest news easily on their devices and can also get help from Alan AI, their own virtual assistant for fetching recent news.

### Magic Memory | Practice project

Technology Stack and Tools

- React

Magic Memory is a react game app.
