EDUCATION

Bhagwan Parshuram Institute of Technology   **2020 − 2024**
*BTech - Information Technology - **CGPA** - **8.7***   *Delhi, India*

TECHNICAL SKILLS

- **Languages:** **C++**, JavaScript, SQL
- **Developer Tools:** VS Code, Github, Render, Canva
- **Technologies/Frameworks:** HTML5, CSS3, **JavaScript**, ReactJS, **PostgreSQL**

PROJECTS

Portfolio ⧉ | React, Bootstrap, AOS   **2024**

- Developed a robust portfolio website using **React** to showcase projects, skills and education.
- Engineered an interactive layout using **Bootstrap**, ensuring seamless user experience thereby enhancing overall user engagement.
- Implemented an **animation-on-scroll**(AOS) library to enhance user experience with smooth animations as users scroll through the portfolio.
- **Github:** Source Code

Task Manager App ⧉ | PostgreSQL, Express, React, Node   **2024**

- Integrated **PostgreSQL (Postgres)** as the primary database for task management, ensuring accurate user data handling and supporting 99.9% uptime across all application functionalities to enhance overall user experience.
- Utilized **Express** to create API endpoints for handling **Create, Read, Update, and Delete** functionalities.
- Designed and deployed popups for engagement helping users to enhance their workflow using productivity tips for **personal growth**.
- Includes User Authentication for secure registration and login processes.
- Constructed a vibrant and user-friendly interface using **React**, boosting user engagement and accessibility.
- **Github:** Source Code

Wave ⧉ | React, Bootstrap   **2024**

- Developed a music app using **React** for building lively user interface.
- Incorporated **Spotify API** to fetch and display music data, enhancing song search efficiency by 40% and providing detailed artist information for over 15,000 tracks.
- Created a visually appealing layout and a fully responsive user interface using **Bootstrap**.
- **Github:** Source Code

Daily Insider ⧉ | React, CSS3, Alan AI, Auth0   **2023**

- Leveraged a **News API** to fetch real-time news articles from various sources, ensuring users have access to the latest content.
- Implemented **Alan AI** to enable hands-free news fetching, enhancing user accessibility and engagement.
- Harnessed **Auth0** for secure user authentication, allowing users to log in and manage their accounts easily.
- **Github:** Source Code

COURSEWORK / SKILLS

- Data Structures & Algorithms
- **OOPS Concepts**
- **Software Engineering**
- **Self-Motivated**
- **Development**
- C++ Programming Language
- **Positive Energy**
- Database Management System (DBMS)

CERTIFICATIONS

- **Career Essentials in Cybersecurity by Microsoft and LinkedIn:** Gained foundational knowledge in cybersecurity, covering threat awareness and **network security**.
- **The Complete Full-Stack Web Developer Course by Udemy:** Acquired skills in web development and hands-on experience
